3. Interest and Periodic Distributions to Loan Unit Holders

- 3.1. The Lender shall be entitled to receive an Interest ("**Interest**") and Distributions on each Loan Unit held by them on a given "**Record Date**" on the corresponding "**Interest and / or Distributions Payment Date**", as mentioned in Annexure A. For the purpose of this Clause, "Record Date" shall mean the date on which the Loan Unit Holders who are eligible to receive Interest and/or Distributions, on the Interest and/or Distributions Payment Date is recorded. Further, Interest and/or Distributions Payment Date shall mean the actual date on which Interest and/or Distributions are paid, respectively, to the Loan Unit Holders, who held such Loan Units on the Record Date. The Record Date and the corresponding Interest and/or Distributions Payment Dates are mentioned in Annexure A of this Agreement and in the event of any change, they shall be intimated to all Loan Unit Holders on the Platform. The Loan Unit Holder shall be entitled to the Interest and/or Distributions after deduction of applicable taxes.
- 3.2. NDCF shall be computed for payment of Interest and/or Distributions towards Loans advanced by Lender to the Borrower. The said Interests and/or Distributions shall be paid to the Lender in proportion to the number of Loan Units held by him as on the Record Date. For the sake of ease and convenience, any adjustments in NDCF that may be required for the purposes of financial accuracy shall be made in quarter ends or year ends, post announcement of audited financial results of the Borrower. The formula to calculate the Interest and periodic Distribution that is payable to a Loan Unit Holder = $\text{NDCF for a given period} / \text{total outstanding number of Loan Units issued by the Borrower} * \text{the number of Loan Units held by a given Loan Unit Holder on the Record Date}$. The modalities of calculating NDCF for a given period is explained below in clause 3.9.
- 3.3. The Interest is variable and is dependent on the NDCF generated by the Property of the Borrower in the particular assessment period. There can be times when the NDCF may be nil or negative, resulting in no Interest payments/Distributions to the Loan Unit Holder, for the said

period / periods and / or result in adjustments in the subsequent periods from the surplus NDCF generated during such subsequent period.

- 3.4. The Interest rate or the quantum of the Interest amount, is not guaranteed by the Borrower and are completely dependent on the market conditions affecting the income generation ability of the Property.
- 3.5. The Borrower shall remit the Interest and/or Distributions amounts into the Lender's bank account if specifically requested by the Lender in writing, else it shall be in accordance with the Platform's Terms and Conditions.
- 3.6. In the event of the date on which any amount payable with respect to the Loan falls on a public holiday then the Interest pertaining to that date shall be paid by the Borrower on the preceding business day.
- 3.7. In addition to Interest, from time to time, the Borrower may upon receiving due advice from its accountant / auditors / consultants / Master Property Manager, at its sole discretion, declare other forms of Distributions, out of the excess cash balances or any other rewards from any community benefits program initiated by the LLP and / or the MPM, that are not required for the foreseeable future by the Borrower ("**Distributable Cash**"). Such Distributions out of the Distributable Cash is over and above the Interest and may have been generated because of various factors including but not limited to, non-cash profit and loss items such as depreciation. The Lender hereby agrees that Loan Unit Holders shall be eligible to be paid only up to 80% (eighty percent) of such Distributable Cash as the Distributions over and above the Interest, in the form of repayment of Principal Value of the Loan Unit. The residual 20% (twenty percent) of the Distributable Cash shall be distributed by the Borrower to its Partners. The Lender understands and agrees that the Distributions shall be payable at the sole discretion of the Borrower and at the time as determined by the Borrower. The Lender also acknowledges that the Borrower may not make any Distributions before the Maturity Date in case there is no Distributable Cash as per the books of account of the Borrower.
- 3.8. The Interest and Periodic Distributions per Loan Unit shall not differ based on the Principal Value of the Loan Unit, held by any given Loan Unit Holder.
- 3.9. NDCF for a given period:
 - 3.9.1. NDCF for a given period, where the period is prior to the commencement of sale of Properties to initiate payment of Repayment Amount, shall be calculated as 80% (Eighty percent) (**multiplied by**) (Gross Income **(minus)** annual accretions to the contingency reserve in the Borrower's balance sheet **(minus)** interest and principal repayments to lenders who are financial institutions **(minus)** Operating Expenses).
 - 3.9.2. NDCF for a given period, where the period is upon commencement of sale of Properties to initiate payment of Repayment Amount, shall be calculated as (aggregate Last Updated Principal Value of all the Loan Units of the Borrower / Economic Value of the Borrower) (**multiplied by**) (Gross Income **(minus)** annual accretions to the contingency reserve in the Borrower's balance sheet **(minus)** interest and principal repayments to lenders who are financial institutions **(minus)** Operating Expenses). This principle is also applicable to Distributable Cash.
